

Sit-ups on the Ball

- Sit on a ball, and slowly roll to where your low back is on the ball, placing your feet slightly wider than shoulder width for stability
- Placing your hands either on your chest, or holding your ears (not your neck),
- Brace your abdominal muscles, tightening them for stability while raising and tightening your hip muscles
- Raise your shoulders, not just your head, toward the ceiling, creating a “C” shape in your back
- Your low back will stay on the ball, this is only a crunch not a full sit-up
- Return slowly to a reclined position, slightly arching your back over the ball; repeat

- To get the most out of your workout, aim for 1-3 sets of 12-15 repetitions
